Hi,

This is an excellent submission that demonstrates depth, sophistication, and originality. You have provided a critical and well-supported proposal. The high-quality structure, visual models, and referencing strengthen the report further. To move towards the top of this range, you could continue to push creativity in agent design and show more innovation in applying advanced techniques.

Knowledge & Understanding

- Excellent and comprehensive understanding of the domain.
- System requirements and design decisions are explained in depth with strong academic grounding.
- Integrates advanced theoretical and practical perspectives.

Application of Knowledge

- Highly effective and sophisticated application of concepts to the agent design.
- Anticipates and addresses challenges thoroughly with robust solutions.
- Demonstrates mastery of paradigms, patterns, and practices.

Criticality

- Well-argued justifications with strong evidence and insight.
- Alternatives critically evaluated; demonstrates originality of thought.

Structure & Presentation

- Exceptionally clear, polished, and professional proposal.
- Graphical designs are comprehensive, accurate, and well-integrated.
- Some references that lack complete details are cited in text but are missing from the references.

- Formatting of URLs is inconsistent—some are overly long Google redirect links rather than clean publisher links.
